Streamline your Cash Application with HighRadius

Auto-Aggregate Remittance Data

Eliminate lockbox fees by automating remittance data capture across sources

Securely collect structured and unstructured remittance data from client portals and check stubs using web bots and AI-powered OCR. Auto-extract remittance information from emails(email bodies and attachments) and EDIs with in-built email and EDI parsing engines.

Automate Invoice Matching

Auto-match your payments with invoices and reduce human hours

Match payments to invoices even in the most complex scenarios including parent-child relationships. In absence of an invoice number, the solution auto-matches the invoices using sales order number, purchase order number, and partial or truncated reference numbers.

Automate Deductions Coding

Smart deductions validity predictors to improve bottom line

Identify deductions at the source based on short-payments or over-payments and map the customer reason codes into internal ERP-specific reason codes. Resolve exceptions faster with the help of AI and ML-based recommendations for handling instances such as no remittance scenarios etc.

mRDC Enabled Payment Data Capture

Automate continuous monitoring of customer portfolios for better credit decisions

Collect check payments on-the-go with mobile remote deposit capture (mRDC). Process payments faster by auto-capturing payment and remittance data with AI-based recommendations.

Out-Of-The-Box Reporting Capabilities

Auto-predict blocked orders and take proactive decisions for effective credit management

Get real-time visibility into payment posting statuses and analyst-level metrics for senior management with 100+ out-of-the-box reports. Analyze process efficiency and get visibility across KPIs like average time spent addressing exceptions, header-level and line-item level hit rates, and total payments completed.

Trusted By Leading Mid-Sized Businesses

The HighRadius Promise Of ROI

HighRadius is a leading Fintech company that provides the complete Accounts Receivable and Treasury solution that is quick to set up and scales with your business. Our solutions leverage AI-based Autonomous Systems to automate credit, electronic invoicing and payment processing, cash application, deductions, and collections for companies of all sizes across industries. The result: better, more streamlined O2C operations.

Across Mid-Market & Enterprise Companies
