Scale Your Collections Process With HighRadius

AI-Based Prioritized Worklist

Focus on at-risk customers to improve collection efficiency

Boost efficiency with an intelligence-powered prioritized worklist based on dynamic collection strategies and industry best practices. Get visibility into high-risk customers by leveraging their AR aging reports, AI-predicted payment date, payment history and commitments.

Automated Dunning Process

Zero-touch customer correspondence to boost team productivity

Automate dunning via emails or web portals with easy-to-use templates based on industry best practices and collection strategies. Scale your dunning outreach by automating low-risk customer correspondences.

Integrated Payment Gateway Links

Enable hassle-free payments for faster collections

Include payment links in dunning emails so customers can pay using their preferred method. Push payment information to cash application solution to speed up payment posting against the open invoices and clear the same in the ERP.

Comprehensive Correspondence Toolkit

Leverage smart tools for proactive customer communication and dispute resolution

Stay on top of high-touch customers with in-app VoIP calls, while automatically logging notes and call scripts within the app. Manage one unified workspace with all customer information, past interactions, and collaboration history across all your systems.

Robust Analytics & Reporting

Consolidated reports and dashboards to enhance collection strategies

Access cash forecasting reports and analyze working capital trends across geographies. Use smart AR collection software to get real-time visibility into process health metrics such as bad debt, DSO, and collections effectiveness index (CEI), analyze collection calls, and build effective collection strategies.

Trusted By Leading Mid-Sized Businesses

The HighRadius Promise Of ROI

HighRadius is a leading Fintech company that provides the complete Accounts Receivable and Treasury solution that is quick to set up and scales with your business. Our solutions leverage AI-based Autonomous Systems to automate credit, electronic invoicing and payment processing, cash application, deductions, and collections for companies of all sizes across industries. The result: better, more streamlined O2C operations.

Across Mid-Market & Enterprise Companies

Transactions Processed Annually
