## Real-time Credit Risk Management with HighRadius

### Automate Invoice Delivery

Integrate with AP portals and accounting systems to deliver invoices faster

Automate invoicing through emails, or auto-push information into customer portals, AP portals, or accounting software. Set up recurring invoice delivery using customizable templates based on customers' preferences.

### 150+ Payment Modes for Buyers

Flexible payment options to improve the customer experience

Enable your customers to pay in 150+ payment methods including via ACH, credit card, debit card, SEPA, GiroPay, etc. Direct customers to a guest payment page or embed payment links in dunning emails to get paid in just two clicks.

### Self-Service Customer Portal

Enable self-service customer portals and provide hassle-free AR operations

Empower your customers to view invoices, make payments, track customer portfolios, and raise disputes through a single self-administered portal. Fast-track the buyer onboarding process with pre-filled online forms.

**Invoice Tracking & Analytics**

Monitor the status of invoices and payments with real-time analytics

Get real-time push notifications and alerts when customers receive an invoice. Use custom dashboards to track real-time invoice delivery status and other trends such as invoice-level drill down for buyers and suppliers.

**360-Degree Buyer Visibility**

Analyze, monitor, and take action based on real-time invoice delivery status

Monitor key business metrics such as e-invoice adoption trends, invoice delivery rates, and payment trends through the portal. Receive real-time alerts for cases such as late payments and credit card expiry dates.
